IMMUNOLOGY

CONTENTS

Vol. 44 No. 1 **September 1981**

A. M. MAGRO: Histamine release from fawn-hooded rat mast cells is not potentiated by phosphatidylserine 1

C. A. FOSSATI & M. SPITZ: Participation of diffusible products in the *in vivo* immune primary response to red blood cells 11

K. N. LEUNG, N. K. MAK & G. L. ADA: The inductive requirements for the primary *in vitro* generation of delayed-type hypersensitivity response to influenza virus in mice 17

D. W. H. RICHES & D. R. STANWORTH: Studies on the possible involvement of complement component C3 in the initiation of acid hydrolase secretion by macrophages. I. Correlation between enzyme-releasing and complement-activating capacities of several secretagogues 29

W. A. TAYLOR, DIANNE SHELDON & J. W. SPICER: Adjuvant and suppressive effects of Grass Conjuvac® and other alginate conjugates on IgG and IgE antibody responses in mice 41

MARGARET PINDER, S. KAR, KATHLEEN S. WITHEY, LENA B. LUNDIN & G. E. ROELANTS: Proliferation and lymphocyte stimulatory capacity of *Theileria*-infected lymphoblastoid cells before and after the elimination of intracellular parasites 51

K. DRÖSSLER, F. KLIMA & H. AMBROSIUS: The influence of cyclophosphamide and 6-mercaptopurine on the IgG1 and IgG2 immune response in guinea-pigs 61

D. VAILLIER & J. VAILLIER: Opposing changes in electrokinetic potential of spleen cells induced by factors from different tumour supernatants 67

D. W. MASON, C. W. PUGH & M. WEBB: The rat mixed lymphocyte reaction: roles of a dendritic cell in intestinal lymph and T-cell subsets defined by monoclonal antibodies 75

JANE E. CALVERT, N. R. LING & R. JEFFERIS: Study of proteolytic removal of Fabδ and Fcδ determinants of lymphocyte membrane IgD using a direct rosette assay 89

D. BANERJEE, L. FERNANDO, S. SKLAR & M. RICHTER: The antibody-independent cytotoxic activity of normal circulating human leucocytes. I. Lysis of target cells by monocytes and neutrophils in a non-phagocytic pathway 97

M. RICHTER, D. BANERJEE & S. SKLAR: The antibody-independent cytotoxic activity of normal circulating human leucocytes. II. Failure to demonstrate effector cell–target cell interaction and target specificity of the circulating cytotoxic-enhancing factor 109

Y. NAWA, H. R. P. MILLER, ELIZABETH HALL & ELLEN E. E. JARRETT: Adoptive transfer of total and parasite-specific IgE responses in rats infected with *Nippostrongylus brasiliensis* 119

M. T. DRAYSON, M. E. SMITH & W. L. FORD: The sequence of changes in blood flow and lymphocyte influx to stimulated rat lymph nodes 125

N. MATTHEWS: Production of an anti-tumour cytotoxin by human monocytes 135

R. P. MACDERMOTT, LAURA J. KIENKER, M. J. BERTOVICH & A. V. MUCHMORE: Inhibition of spontaneous but not antibody-dependent cell-mediated cytotoxicity by simply sugars: evidence that endogenous lectins may mediate spontaneous cell-mediated cytotoxicity 143

H. J. VAN BEUSEKOM, L. B. A. VAN DE PUTTE, W. B. VAN DEN BERG, W. J. M. VAN DEN BROEK & W. C. A. M. BUIJS: Antigen handling in antigen-induced joint inflammation: kinetics of a second intra-articularly injected dose of antigen in an already established antigen-induced joint inflammation 153

ANNALISA KUNKL & G. G. B. KLAUS: The generation of memory cells. V. Preferential priming of IgG1 B memory cells by immunization with antigen IgG2 antibody complexes 163

A. R. SANDERSON & P. J. WARD: Epitope sites on human β_2-microglobulin identified by xenogeneic polyclonal and monoclonal antisera 169

D. E. LAFRENZ & T. L. FELDBUSH: Role of T cells in the development of memory B cells. Quantitative and qualitative analysis 177

R. BOMFORD: The adjuvant activity of fatty acid esters. The role of acyl chain length and degree of saturation 187

A. MCPHADEN, D. LAPPIN & K. WHALEY: Enhancement of monocyte complement component synthesis by antigen–antibody complexes 193

BOOK REVIEWS 195

ANNOUNCEMENT 207

ERRATUM 213

Vol. 44 No. 2 **October 1981**

SHIGEKAZU TERUKINA & SUMIO ARAI: Activation of human T and non-T lymphocytes by Sepharose-bound concanavalin A and the differential effect of macrophages 215

T. VERVOORT, A. F. BARBET, A. J. MUSOKE, E. MAGNUS, G. MPIMBAZA & N. VAN MEIRVENNE: Isotypic surface glycoproteins of trypanosomes 223

T. KANKI, O. MORIYA & Y. ICIKAWA: Cell-free translation of immunoglobulin G polypeptides by chicken bursal RNA 233

J. LE MAO, J.-P. DANDEU, J. RABILLON, M. LUX & B. DAVID: Antigens and allergens in *Dermatophagoïdes farinae* mite. I. Immunochemical and physicochemical study of two allergenic fractions from a partially-purified *Dermatophagoïdes farinae* mite extract 239

N. DUCHANGE, L. MILLERIOUX & M. LENFANT: Further study on the humoral response of a highly-purified spleen-derived immunosuppressive peptide (SDIP) 249

E. TUNG, T. K. KUAN, G. W. LITMAN & A. C. WANG: Three monoclonal immunoglobulins, an IgG2(κ) and IgM(κ) and an IgM/A hybrid, in one patient. I. Isolation and characterization 257

T. K. KUAN, E. TUNG, I. Y. WANG & A. C. WANG: Three monoclonal immunoglobulins, an IgG2(κ), an IgM(κ) and an IgM/A hybrid, in one patient. II. Sharing of common variable regions 265

R. M. BINNS, R. PABST & S. T. LICENCE: Classification of lymphocytes recirculating in the spleen 273

J. D. MILTON: The effect of ultraviolet irradiation on the localization of syngeneic and allogeneic lymphoid cells and on alloimmunogenicity 281

T. S. LIM, N. PUTT, D. SAFRANSKI, CHEE CHUNG & R. R. WATSON: Effect of vitamin E on cell-mediated immune responses and serum corticosterone in young and maturing mice 289

B. HURTREL, J. M. ALONSO, P. H. LAGRANGE & MARYSE HURTREL: Delayed-type hypersensitivity and acquired resistance to plague in mice immunized with killed *Yersinia pestis* and immunoregulators 297

H. MIYATA, K. HIMENO, S. MIAKE & K. NOMOTO: Alterations of host resistance to *Listeria monocytogenes* in tumour-bearing mice and the effect of *Corynebacterium parvum* 305

J. P. FLEXMAN & G. R. SHELLAM: Mechanism of stimulation of natural killer-cell cytotoxicity by interferon and an interferon-inducer in the rat 311

R. PABST & R. M. BINNS: *In vivo* labelling of the spleen and mesenteric lymph nodes with fluorescein isothiocyanate for lymphocyte migration studies 321

W. D. GEOGHEGAN, C. A. DAWSON & N. J. CALVANICO: The effect of IgG and IgG fragments on the absorption of inhaled antigens across the air–blood barrier of isolated perfused rabbit lungs 331

N. RUBIO: Characterization of the bone marrow cell population expressing an AKR murine leukaemia-virus gp71-like antigen 339

S. CABILLY & RUTH GALLILY: Non-immunological recognition and killing of xenogeneic cells by macrophages. I. Repertoire of recognition 347

S. CABILLY & RUTH GALLILY: Non-immunological recognition and killing of xenogeneic cells by macrophages. II. Mechanism of killing. 357

M. D. J. DAVIES & DELPHINE M. V. PARROTT: Cytotoxic T cells in small intestine epithelial, lamina propria and lung lymphocytes 367

C. JEANNE BRANDT, LINDA B. DEPPE & A. MALLEY: Antigen B-specific helper factor from timothy grass pollen: isolation and partial characterization 373

J. R. CARLO, J. K. SPITZNAGEL, E. J. STUDER, D. H. CONRAD & S. RUDDY: Cleavage of membrane bound C3bi, an intermediate of the third component of complement, to C3c and C3d-like fragments by crude leucocyte lysosomal lysates and purified leucocyte elastase 381

G. CHAOUAT & G. A. VOISIN: Regulatory T cells in pregnancy. III. Comparison of early acting and late acting suppressor T cells in MLR: evidence for involvement of differential T-cell subsets 393

W. H. STIMSON & P. J. CRILLY: Effects of steroids on the secretion of immunoregulatory factors by thymic epithelial cell cultures 401

M. T. SCOTT: Delayed hypersensitivity to *Trypanosoma cruzi* in mice: specific suppressor cells in chronic infection 409

H. R. P. MILLER, J. F. HUNTLEY & G. R. WALLACE: Immune exclusion and mucus trapping during the rapid expulsion of *Nippostrongylus brasiliensis* from primed rats 419

C. E. MOODY, J. B. INNES, L. STAIANO-COICO, G. S. INCEFY, H. T. THALER & M. E. WEKSLER: Lymphocyte transformation induced by autologous cells. XI. The effect of age on the autologous mixed lymphocyte reaction 431

Vol. 44 No. 3 **November 1981**

M. A. RITTER, C. A. SAUVAGE & S. F. COTMORE: The human thymus microenvironment: *in vivo* identification of thymic nurse cells and other antigenically-distinct subpopuations of epithelial cells 436

G. G. CORNWELL III, P. WESTERMARK, J. B. NATVIG & WENDY MURDOCH: Senile cardiac amyloid: evidence that fibrils contain a protein immunologically related to proalbumin 447

ANNE B. WILSON, SARAH PRICHARD-THOMAS & R. R. A. COOMBS: Evidence that the fourth component of complement (C4) is carried on a high proportion of normal guinea-pig B lymphocytes 453

M. D. RAHAL & D. G. OSMOND: Maturation of bone marrow lymphocytes. IV. Kinetics of maturation and renewal of lymphocytes expressing Ia and H-2K antigens 463

D. S. CUNNINGHAM & F. M. COLLINS: Suppressor and helper T-cell populations in *Mycobacterium kansasii*-infected spleens 473

W. B. VAN DEN BERG, J. VAN TUYL, P. SMINIA, THEA M. J. JENTJENS & R. J. SCHEPER: Lymphokine-mediated stimulation of eosinophil migration in the guinea-pig 481

J. K. ROCHE, S. R. COOK & E. D. DAY: Cellular cytotoxicity and gastrointestinal inflammation in inbred rats: induction with gut organ-specific antigens 489

N. ENDHO & Y. HASHIMOTO: Factors influencing the autologous mixed lymphocyte reaction in rats: effect of xenogeneic serum protein 499

E. J. WING: Bacillus Calmette-Guérin (BCG) decreases resistance to *Listeria monocytogenes* infection in mice 509

C. MORENO, CHRISTINE HALE, ROSEMARY HEWETT & JANE ESDAILE: Induction and persistence of B-cell tolerance to the thymus-dependent component of the $\alpha(1\rightarrow6)$ glucosyl determinant of dextran. Recovery induced by treatment with dextranase *in vivo* 517

ELIZABETH GLASS, J. STEWART & D. M. WEIR: Presence of bacterial binding 'lectin-like' receptors on phagocytes 529

K. KODAMA, T. YOSHIDA, T. SHIBUYA, S. KURASHIGE & S. MITSUHASHI: Induction of IgM memory with RNA from the spleens of immunized mice 535

R. V. HEATLEY, J. M. STARK, P. HORSEWOOD, E. BANDOUVAS, F. COLE & J. BIENENSTOCK: The effects of surgical removal of Peyer's patches in the rat on systemic antibody responses to intestinal antigen 543

LENA EDELMAN, PH. ROUGER, CH. DOINEL, H. GARCHON, J. F. BACH, J. REVIRON & CH. SALMON: Thermodynamic and immunological properties of a monoclonal antibody to human blood group A 549

YVONNE ROSENSTEIN, R. R. KRETSCHMER & CHRISTIANE LAFARGE-FRAYSSINET: Effect of *Fusarium* toxins, T2-toxin and diacetoxyscirpenol on murine T-independent immune responses 555

A. J. VAN HOUTE, H. SNIPPE, MARION G. J. SCHMITZ & J. M. N. WILLERS: Characterization of immunogenic properties of haptenated liposomal model membranes in mice. V. Effect of membrane composition on humoral and cellular immunogenicity 561

M. B. HALLETT, J. P. LUZIO & A. K. CAMPBELL: Stimulation of Ca^{2+}-dependent chemiluminescence in rat polymorphonuclear leucocytes by polystyrene beads and the non-lytic action of complement 569

J. A. MCINTYRE, B. HSI, W. PAGE FAULK, A. KLOPPER & ROBYN THOMSON: Immunological studies of the human placenta: functional and morphological analysis of pregnancy-associated plasma protein A (PAPP-A) 577

G. M. BAHR, G. A. W. ROOK, J. L. STANFORD, P. M. LYDYARD & A. D. M. BRYCESON: The effect of delayed addition of antigen and 'E' rosetting on the proliferative response to mycobacterial antigens of peripheral blood lymphocytes from normal individuals or from patients with tuberculosis or leprosy 585

G. M. BAHR, G. A. W. ROOK & J. L. STANFORD: Inhibition of the proliferative response of peripheral blood lymphocytes to mycobacterial or fungal antigens by co-stimulation with antigens from various mycobacterial species 593

MARIA KÁVAI, M. SÁNDOR, GY. SZEGEDI, G. FÜST & J. GERGELEY: Effect of soluble immune complexes on Fc and C3 receptor-dependent phagocytosis by human monocytes 599

SUSAN R. S. GOTTESMAN, J. A. KRISTIE & R. L. WALFORD: Proliferative and cytotoxic immune

functions in ageing mice. I. Sequence of decline of reactivities measured under optimal and suboptimal sensitization conditions 607
A. GÓRSKI, Z. GACIONG & BO DUPONT: Enhanced clonability of human T lymphocytes caused by their culturing *in vitro* 617
M. R. ALLANSMITH, K. J. BLOCH, R. S. BAIRD & K. SINCLAIR: Ocular anaphylaxis: induction by local injection of antigen 623
PATRICIA WOO & P. J. LACHMANN: The detection and characterization of a membrane protein with Factor B-like activity on human lymphoid cells 629
F. KIERSZENBAUM: On evasion of *Trypanosoma cruzi* from the host immune response. Lymphoproliferative responses to trypanosomal antigens during acute and chronic experimental Chagas' disease 641
BOOK REVIEWS 649

Vol. 44 No. 4 **December 1981**

L. A. FERNANDEZ & J. M. MACSWEEN: The suppressive effects of monocytes in the autologous mixed lymphocyte reaction 653
JANE I. MORTON, DEBRA A. WEYANT, B. V. SIEGEL & B. GOLDING:Androgen sensitivity and autoimmune disease. I. Influence of sex and testosterone on the humoral immune response of autoimmune and non-autoimmune mouse strains to sheep erythrocytes 661
V. A. LAVROVSKY & V. KH. VIKSLER: Enhanced immune reactivity to heptoma 22a cells in MTV-infected compared with MTV-free C3H mice 671
R. J. SMITH, BARBARA J. BOWMAN & SUSAN S. IDEN: Effects of trifluoperazine on human neutrophil function 677
J. D. WATERFIELD, D. F. NIXON & MARGARET G. MAIR: Lymphocyte-mediated cytotoxicity against allogeneic tumour cells. IV. Fine specificity mapping and characterization of concanavalin A-activated cytotoxic effector lymphocytes 685
E. T. LALLY, R. C. FIORINI & P. C. MONTGOMERY: Co-operative cellular interactions in the generation of adoptively-transferred murine IgA responses 695
R. M. GALBRAITH & GILLIAN M. P. GALBRAITH: Expression of transferrin receptors on mitogen-stimulated human peripheral blood lymphocytes: relation to cellular activation and related metabolic events 703
S. B. LEHRER, MARJORIE L. MCCANTS, PATRICIA N. FARRIS & H. BAZIN: Passive cutaneous anaphylaxis inhibition: evidence for heterogeneity in IgE mast cell interaction 711
W. P. AREND & R. J. MASSONI: The effect of complement in adherent immune complexes on Fc and C3 receptor expression in human monocytes 717
A. N. BARCLAY: Different reticular elements in rat lymphoid tissue identified by localization of Ia, Thy-1 and MRC OX 2 antigens 727
N. A. STAINES, T. HARDINGHAM, M. SMITH & B. HENDERSON: Collagen-induced arthritis in the rat: modification of immune and arthritic responses by free collagen and immune anti-collagen antiserum 737
JIN-LAI CHANG, DOINA GANEA, S. DRAY & M. TEODORESCU: An α_2-macroglobulin associated factor produced by T lymphocytes which provides polyclonal stimulation of B lymphocytes to maintain the turnover of their surface Ig 745
D. S. SCHMID, H. S. LARSEN & B. T. ROUSE: The role of accessory cells and T cell-growth factor in induction of cytotoxic T lymphocytes against herpes simplex virus antigens 755

LINA MATERA, M. R. POTTER & M. MOORE: Proliferative response of lymphocyte subpopulations differing in avidity for sheep red blood cells after stimulation with normal allogeneic and tumour cells 765

F. G. COSIO, S. K. ACKERMAN, S. D. DOUGLAS, P. S. FRIEND & A. F. MICHAEL: Soluble immune complexes binding to human monocytes and polymorphonuclear leucocytes 773

P. H. RUSSELL: Augmentation of the antibody forming cell response to neuraminidase-treated cells by myxoviruses 781

T. W. JUNGI & R. JUNGI: Immunogical memory to *Listeria monocytogenes* in rodents. IV. Studies on origin and fate of tissue-positioned T memory cells 789

J. K. ROCHE, S. L. COOK & E. D. DAY: Goblet cell glycoprotein: an organ-specific antigen for gut. Isolation, tissue localization and immune response 799

A. RUIZ-ARGUELLES, L. LLORENTE, E. DÍAZ-JOUANEN & D. ALARCÓN-SEGOVIA: Optimal conditions in [^{3}H]-thymidine uptake studies to prevent radiation damage to cells. A scintimetric and cytofluorographic analysis 811

ROBERTA COCCHIARA, AGATA CIALLONGO, S. AMOROSO, G. SPINA, ROSA STANCAMPIANO & D. GERACI: Circulating immune complexes in patients with usual interstitial pulmonary fibrosis: partial characterization and relationship with *Thermoactinomyces vulgaris* 817

R. M. GORCZYNSKI & SUSANNAH MACRAE: Microheterogeneity in regulatory circuits for T-cell alloresponsiveness 827

A. J. WILLIAMS & P. J. COLE: Polymorphonuclear leucocyte membrane-stimulated oxidative metabolic activity—the effect of divalent cations and cytochalasins 847

J. W. COLEMAN & R. C. GODREY: The number and affinity of IgE receptors on dispersed human lung mast cells 859

J. VAN WAUWE, J. GOOSSENS, W. DECOCK, P. KUNG & G. GOLDSTEIN: Suppression of human T-cell mitogenesis and E-rosette formation by the monoclonal antibody OKT11A 865
